President Letter

By: Tim Hearteau

Happy November Everyone,

Did you start working on your holiday projects yet? I think the snow and cold has tricked me into an early start. I've been making wood chips at a pretty good pace and I might even be done with time to spare this year.

A big thanks to Darren for his snowflake ornament demo. I really liked how the ornament combined the flat snowflake with the turned ball. I know there are at least a couple of other members that have already started their snowflake ornaments. Looking forward to seeing our seasonal projects.

Club Business - Filing for our tax-exempt status. Looks like we are on track and Gerry should have an update for us at the meeting.

Club Treasurer, Bay Lake Woodturners is looking for a member to perform Treasurer duties. Tom Carlson has informed me that he is ready to handoff the Treasurer duties to another club member. Tom indicated that he will fill the role through December and assist with the transition into early 2020. I'd like to thank Tom for all he has done. We are fortunate to have such a dedicated individual support our club right from the start. Thank you, Tom!

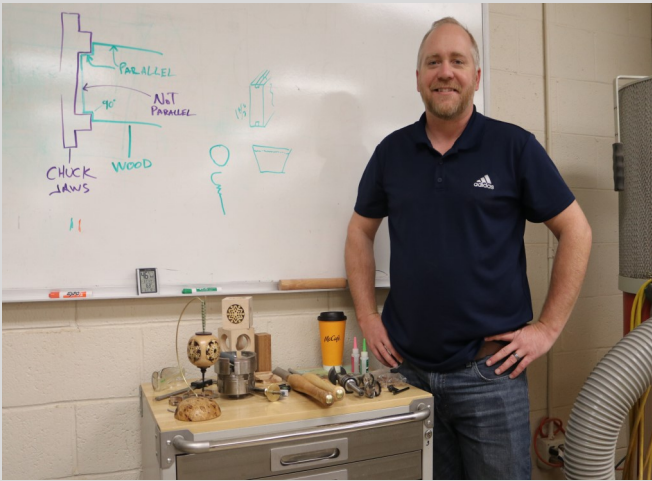

November Demo - If you like small turning, we have a great one this month! Ed Cole has scheduled a video demonstration with Cindy Drozda from Colorado. Cindy is an accomplished woodturner that has demonstrated at many national and regional symposiums. Cindy has produced multiple instruction videos and has videos posted on YouTube. She will be making a small box with finial. I'm looking forward to this one.

Hope to see you there,

Tim

September Demonstrator — Darren Throop

Darren has been turning for about 12 years and is self taught. He has been a member of the BayLake Woodturners Club for many years and enjoys turning hollow forms. He uses the AAW website for many of his projects. Darren demonstrated an intricate Christmas ornament with a finial. He took a 4 x 4 block and drilled holes in the four sides. He then glued up layers of snowflakes and then glued them into the holes. Next he turned the cube round until he was just touching the snowflakes. Then he turned a finial for the bottom of the ornament. Thanks Darren for getting us in the Holiday Spirit!

This month we have a special world renown artist, demonstrator and woodturner presenter, Cindy Drozda. Cindy will be doing a video demo on finials. Bring your pen and paper to take notes on how she turns finials. Many of us know her for the finial boxes she creates but Cindy has worked with wood professionally since age 19 and she has been turning since 1985. Her work can be seen at the finest juried shows and exhibitions in the USA. Cindy shares her woodturning knowledge and passion with demonstrations, books and videos.

To see more of Cindy's work go to www.cindydrozda.com

Meet a Member of the Club

I am Russ Roland and I have been a turner since the early years of our Bay Lakes Turners, I am a Green Bay resident and founder of Bay Lakes Commercial Realtors in 1978. I am now retired I and am a high energy person and always looking for exciting things to do and explore and so turning was a natural draw. An avid hunter, RV'er I love nature and being in the woods, and while outside I love to explore the shapes and forms of the wood I encounter. I have never been a big bowl turner, but an enthusiast of unique shapes of wood. I beach comb and walk in the woods for burls and forms to make what I feel are art forms. I enjoy doing lamps, combining wood with

antique artifacts, small machinery, and glass.

Meeting on Saturdays is a great joy, meeting with a great bunch of guys and sharing ideas, although having 10 grandchildren, many Saturdays I am on the soccer field, baseball field or in the gym. Balancing weekends can sometimes be a challenge

Relaxing, motivating and learning at our events is a great release. I always spread the word what fun I have with our organization.
