March demo – The topic of “finishing” was covered last month. We had some very good pieces that were finished from a variety of top coats. I hope the demo provided insight and value that you can use in the future. Thanks to the club members that brought their various turnings in to show case how the different coatings can enhance your work pieces.

BayLakes around the world - I see from browsing various social media sources that some of our club members had a wonderful trip to Africa. I commend their efforts and am proud to have them as part of our BayLakes Woodturners club. Wonderful work everyone! (maybe you can give us a little update on the trip?)

Our next meeting is on Saturday April 20th. We have an assortment of “hands-on” activities that include; box making, turning a sphere, hollowing and tool presentation. The set up will allow our members to try these different projects. We will also have a few lathes “open” if you want to bring your own wood and get some pointers on a specific turning project. I encourage those attending to give them a shot!

See you Saturday, Tim

MARCH DEMONSTRATION

By: Gerry Jensen

Tim Harteau did a detailed presentation on finishes and finishing for our March 2019 meeting. Tim, along with several club members, brought a wide array of finishes (who knew there were so many options?), along with samples of finished turnings. Tim also provided 3 reference sheets for his finishing demo that are posted on the club's website and Facebook page. Tim also brought a mystery guest presenter ... a guy named Tom, who looked a lot like he could be Tim's doppelganger!

Remember to check out AAW for more articles and tips on finishes and finishing. Here is an AAW article on hiding small cracks and checks.

<https://www.woodturner.org/page/RepairCracksChecks?&hsearchterms=%22water+and+base%22>

There is also an article on water based finishes in the American Woodturner magazine, June 2014.

Beads of Courage: We are planning to ship a batch of Beads of Courage boxes to Children's Hospital of Wisconsin after our May meeting. Several members have Beads of Courage bead kits, so we will need your finished boxes by May 18, 2019. Gerry Jensen will have more kits available at our April meeting for anyone interested in joining the project. So far, our club has created over 30 Beads of Courage boxes for children undergoing treatment in the 'MACC Fund Center for Cancer and Blood Disorders' at Children's Hospital.

BAYLAKES CLUB WEBSITE

By: Gerry Jensen

Our BayLakes club website now has a page with links to handouts and demo information. Just go to <https://baylakewoodturners.com> and click the 'Handouts & Demo Info' item on the main menu.

LATHE

If you are looking to sell your lathe, Mark Hawkins is looking for a lathe for Hands on Deck. Just let Kelly know what type of lathe you have for sale.
